

# COLLABORATION TRAINING

## COLLABORATION ACTION PLAN

### 4 COLLABORATION SPACES

INNOVATING & BRAINSTORMING	INFLUENCING DIRECTION
MAKING DECISIONS & COORDINATING	GETTING CHANGE ADOPTION

### 2-HOUR (LIVE) VIRTUAL TRAINING

#### WHAT'S IT ABOUT?

You've felt the pain: silos, rework, projects getting vetoed at the last minute, lack of creativity, and last minute urgencies. In this session, we'll dig into the traps that create those and other collaboration failures in the workplace. Working in a global, matrixed environment only makes this tougher to pull off (and more important too).

You'll also explore collaboration from 4 angles:

- 1) When you're trying to innovate or generate new ideas,
- 2) When you're attempting to influence direction,
- 3) When you're making decisions and coordinating with others during a process, program, or project, &
- 4) When you need to get others to adopt a change.

### UNDERSTAND THE TRAPS THAT LEAD TO SILOS AND STIFLED INNOVATION

### CREATE A PRACTICAL ACTION PLAN TO IMPROVE COLLABORATION TOMORROW

#### THREE COMMON COLLABORATION TRAPS

- 1 No Time Allocated  
For Collaboration
- 2 Assumptions And  
Misunderstandings
- 3 Complexities of  
Global, Matrixed  
Environments
